Experience and Education

DeepMind

RESEARCH SCIENTIST

London, UK

Sep. 2016 - PRESENT

- Using neuroscience-inspired approaches to work toward AGI.

Harvard University

PH.D. IN NEUROSCIENCE, LAB OF CHRISTOPHER HARVEY

Cambridge, Massachusetts, USA

Jul. 2011 - April 2016

- Developed a novel evidence accumulation task for head-restrained mice in virtual reality and used calcium imaging of activity in large neuronal populations along with advanced and new computational analyses to study the neuronal population activity dynamics underlying decision-making.
- Using machine learning approaches that had not been applied to neuroscience data sets previously, we analyzed the dynamics of population activity during single trials and identified multiple major features of the population activity, including a distributed code among heterogeneous individual neurons, history signals for past events lasting seconds, and structured trial-trial variability that was predictive of past and future activity patterns.
- Together our results provide data that contradict the long-standing models of evidence accumulation and that propose a novel model of computation based on large-scale neuronal population dynamics.

University of California, San Diego

B.S. IN PHYSIOLOGY AND NEUROSCIENCE

La Jolla, California, USA

Sept. 2008 - March 2011

Salk Institute for Biological Studies, Lab of Fred H. Gage

RESEARCH ASSISTANT

La Jolla, California, USA

Jan. 2009 - Dec. 2010

- Researched the role of REST in adult neurogenesis.

Awards, Honors, & Fellowships

- 2013-2016 **Stuart and Victoria Quan Pre-Doctoral Fellowship**
Harvard Medical School
- 2013 **Honorable Mention**
NSF Graduate Research Fellowship
- 2009-2010 **Research Scholar**
Amylin Pharmaceuticals
- 2009 **Summer Research Fellow**
Howard Hughes Medical Institute
- 2009 **Scholar**
Alliance for Affordable Services

Teaching Experience

- 2012 **Teaching assistant, MATLAB/Quantitative Methods Bootcamp**
Harvard Medical School

Relevant coursework

FOR DEGREE CREDIT

- 2012 **NB204, Neurophysiology of Central Circuits**
Harvard University
- 2015 **CS281, Advanced Machine Learning**
Harvard University

ONLINE
